Information Services Unit

Issue/Rev.: R 3-10-06

This policy is primarily oriented toward dealing with the aftermath of the line of duty death of an employee. At the discretion of the Chief of Police or the Duty Chief, portions of this policy may be implemented for the death of an employee or retired employee due to other circumstances.

- 217.01 Members are required to maintain an up-to-date Line of Duty Emergency Contact Form in their personnel file in the Fiscal Affairs Section. Additionally, an electronic copy will be maintained on the Intranet with limited access privileges. The information will be of great assistance to members' families and the Department in the case of an accident or death. These forms will be up-dated each year during annual evaluations.

217.02 GENERAL

R

Procedures to ensure the proper support and emotional care for a member's survivors following a line-of- duty death/injury:

- A. The Department will provide liaison assistance to the immediate survivors of a member who dies or is critically injured in the line of duty. This assistance is provided whether the death or injury was by a criminal act, or accidental (i.e., automobile accident, hit by a passing vehicle during a traffic stop, training accident) while the member was performing a police-related function, either on or off-duty, and while he or she was an active member of the Department.
- B. The Chief of Police may institute portions of this policy in cases of a member's death, from causes not related to duty.
- C. The Department will also provide a clarification and comprehensive study of survivor benefits as well as emotional support during this traumatic period of readjustment for the surviving family.
- D. Funeral arrangements of the deceased member are to be decided by the immediate family, with their wishes taking full precedence over any others.
- E. Employees killed or seriously injured while committing unlawful acts, either on duty or off, will not be provided all the benefits and recognition called for in this policy. However, the Department will still work with survivors to ensure that appropriate arrangements are made.

- 217.03 Coordination of events following the line-of-duty death/injury of a Police Employee is an extremely important and complex responsibility. In order to provide the best possible services and support for the member's family, specific tasks may be assigned to selected members of the Department, identified as:

1. Notification Officer
2. Hospital Liaison Officer
3. Family Liaison Officer
4. Department Liaison Officer
5. Benefits Coordinator

217.04 RESPONSIBILITIES OF ASSIGNMENTS (a member may be called upon to perform more than one role.)

R

A. NOTIFICATION OFFICER: It is the responsibility of the Watch Commander to properly notify the family of an employee who has suffered severe injuries or has died. The Watch Commander may personally make the notification with the assistance of another person or designate a Notification Officer to inform the survivors. The responsibilities include:

1. The name of the deceased member will not be released to the media, until the Department has notified the immediate family, and should be released only at the direction of the Chief or Duty Chief.
2. If there is knowledge of a medical problem with an immediate survivor, medical personnel should be dispatched to the residence to coincide with the death notification.
3. Notification will always be made in person and never alone. It is highly encouraged that the personnel making the notification be comprised of the male and female team whenever possible. The Chief of Police, his or her designee, Police Chaplain, close friend, or another police survivor could appropriately accompany the Notification Officer. However, if the aforementioned persons are not readily accessible, notification should not be delayed until a group can gather. If there is an opportunity to get a spouse or family member to the hospital prior to the death of a Department member, do not wait for a delegation to gather. The family should learn of the death from the Department, not from the press or other sources.

4. Never make a death notification on the doorstep. Ask to be admitted to the residence. Inform family members slowly and clearly of the information you have. If specifics of the incident are known, the Notification Officer should relay as much information as possible to the family. Be sure to use the member's name during the notification. If the member has died, relay that information. Never give the family a false sense of hope. Use words such as "died" and "dead" rather than "gone away" or "passed away."
5. If the family requests to visit the hospital, they should be transported by police vehicle. It is highly recommended that the family not drive themselves to the hospital. If the family insists on driving, a member of the department should accompany them in the family car.
6. If young children are at home, the Notification Officer must arrange for babysitting needs. This may involve co-workers' spouses, transportation of children to a relative's home, or similar arrangements.
7. Prior to departing for the hospital, The Notification Officer should notify the hospital staff and the Hospital Liaison (by telephone if possible) that a member(s) of the family is enroute. The dispatcher should also be advised family is enroute.
8. The deceased or severely injured member's parents will also be afforded the courtesy of a personal notification whenever possible.
9. If immediate survivors live beyond the Wichita area, the Notification Officer will ensure that a message is sent to the appropriate jurisdiction, requesting personal notification. The Notification Officer should also call the other jurisdiction by telephone. Arrangements should be made to permit simultaneous telephone contact between the survivors and the Department.
10. The Chief or a Command Staff representative should respond to the residence or the hospital to meet with the family as quickly as possible.
11. In the event of an on-duty death, communications regarding notifications should be restricted to the telephone. If the media has obtained the member's name, they will be requested to withhold the information, pending notification of the family.
12. The Notification Officer(s) should remain at the hospital while the family is present, or make arrangements for relief if events take an extended time.

B. HOSPITAL LIAISON: The first Commander, other than the Chief or his/her representative, to arrive at the hospital becomes the Hospital Liaison. The Hospital Liaison is responsible for coordinating the activities of hospital personnel, the member's family, police officers, the press and others. These responsibilities include:

1. Arranging with hospital personnel to provide an appropriate waiting facility for the family, the Chief of Police, the Notification Officer, and any others requested by the immediate survivors.
2. Arranging a separate area for fellow employees to assemble.
3. Establishing a press staging area.
4. Ensuring that medical personnel relay pertinent information regarding a member's condition to the family on a timely basis and before such information is released to others.
5. In the case of a line of duty death, notifying the appropriate hospital personnel that all medical bills relating to the injured or deceased member are directed to the City of Wichita Safety and Risk Management Office. The family should not receive any of these bills at their residence. This may require the Hospital Liaison to re-contact the hospital during normal business hours to ensure that proper billing takes place.
6. Ensuring that the family is updated regarding the incident and the member's condition upon their arrival at the hospital, and arranging transportation for the family back to their residence.
7. Ensure that if it is possible for the family to visit the injured member before death, they are afforded that opportunity. A police official should prepare the family for what they might see in the emergency room and should accompany the family into the room for the visit if the family requests it.

C. OTHER AREAS OF CONCERN:

1. Hospital personnel should advise the family of visitation policies, and in the event of death explain why an autopsy is required.
2. Do not be overly protective of the family. This includes sharing specific information as to how the member met his or her death, as well as allowing the family time with the deceased member.

3. The Chief of Police, or a designee, will meet the member's family at their home to determine their wishes regarding Departmental participation in the preparation of the funeral or services. All possible assistance will be rendered.
- D. **FAMILY LIAISON OFFICER:** With the approval of the family, the Chief will assign a Family Liaison Officer. The selection of a Family Liaison Officer is a critical assignment. An attempt should be made to assign someone who enjoyed a close relationship with the member and his or her family. When possible, male/female teams should be utilized as Family Liaison Officers. This is not a decision-making position, but a facilitator between the family and the Department. Responsibilities of the Family Liaison Officer include:
1. The Family Liaison acts as a long-term liaison with the surviving family to ensure that close contact is maintained between the Department and the survivors, meeting their needs as long as they welcome the support.
 2. If no court proceedings surround the circumstances of the member's death, the Family Liaison will relay all details of the incident to the family at the earliest opportunity.
 3. If criminal violations surround the death, the Family Liaison will:
 - a. Inform the family of all new developments prior to press release.
 - b. Keep the family apprised of legal proceedings.
 - c. Introduce the family to the appropriate victims' assistance coordinators.

 5. Ensuring that the needs and wishes of the family come before the wishes of the Department to include the completion of the Survivors Intake Form available from the Administrative Services commander.
 6. Assisting the family with funeral arrangements and making them aware of what the Department can offer if they decide to have police participation in the funeral. If they choose police participation, briefing the family on funeral procedure (i.e., presenting the flag, playing of taps, firing party).
 7. Being constantly available to the family, providing a contact number to the family.
 8. Determining what public safety, church, fraternal and labor organizations will provide in terms of financial assistance for out of town family travel, food for funeral attendees following the burial, etc.
